EDUCATION

- **Manipal Institute of Technology [MIT]** Manipal, India
Bachelor of Technology - Data Science; CGPA: 7.88
Courses: Machine Learning, Deep Learning, Operating Systems, Data Structures, Algorithms, Object Oriented Programming, Computer Networks, Software Engineering, Compiler Design, Database Management
2023 -2027(Expected)
- **Sri Sri Ravishankar Vidya Mandir School** Surat,India
Class XII, Percentage: 86.6
2023
- **Sri Sri Ravishankar Vidya Mandir School** Surat,India
Class X, Percentage: 88.8
2021

SKILLS SUMMARY

- **Languages:** C, C++, Java, Python, SQL
- **Tools:** GIT, Wordpress, Jupyter Notebook, Power BI, Tableau, TensorFlow, Keras, OpenCV
- **Web development:** HTML, CSS, JavaScript, Bootstrap, , NextJs, Django

EXPERIENCE

- **Data Analytics Intern – Avaada Electro:** Dec 2025 – Jan 2026
 - Analyzed **MES production and rejection data** using Excel to deliver accurate operational insights
 - Standardized **line-wise rejection reporting** by consolidating five formats into a KPI-driven structure
 - Developed **seven Power BI dashboards** to monitor production trends, rejection rates, and losses
 - Automated reporting with **mobile-accessible dashboards**, reducing manual effort and enabling faster decisions

PROJECTS

- **Language Translation & Summarization Model — Deep Learning (Python, TensorFlow, Keras):**
 - Developed a transformer-based NLP model for multilingual translation and text summarization
 - Optimized the model to handle large multilingual datasets efficiently while maintaining high accuracy and fluency
 - Enabled automated content summarization, cross-language knowledge extraction, and multilingual data processing
- **E-Commerce Database System — SQL (MySQL, Flask API, HTML, CSS, Python):**
 - Designed and implemented a relational database for a basic e-commerce platform
 - Built normalized schemas to manage user accounts, products, orders, and inventory
 - Created complex SQL queries for generating sales reports, tracking user purchases, and managing stock
 - Used stored procedures and triggers to automate cart management and order updates

EXTRACURRICULAR

- **Public Relations and Outreach Head – The Data Alchemists:** Aug 2025 - Present
Lead PR, outreach, and branding activities, building collaborations, sponsorships, and community engagement. Manage the club's digital presence through campaigns and communications to enhance visibility
- **Campus Ambassador – Unstop:** Aug 2025 - Present
Actively promote Unstop's competitions, hackathons, and opportunities on campus by leading outreach and awareness initiatives, while driving student participation and enhancing Unstop's brand presence through strategic promotions and networking

ACHIEVEMENTS AND CERTIFICATIONS

- **Microsoft Data Visualization Specialization – Microsoft, Jan 2026**
Skilled in Power BI, DAX, and data analytics, creating interactive dashboards and visualizations to drive actionable business insights
<https://www.coursera.org/account/accomplishments/specialization/E2MSC7U5CO5H>
- **Generative AI with Large Language Models – AWS, Oct 2025**
Proficient in leveraging Generative AI and Large Language Models to create intelligent, context-aware solutions, automate tasks, and generate insights from complex data
<https://www.coursera.org/account/accomplishments/records/Z073E48NM8P5>

VOLUNTEER EXPERIENCE

- **Core Committee Member – Manipal Hackathon, TectTatva 2025 :**
Overseeing planning and execution of the national-level hackathon, including team coordination, logistics, social media presence, and participant experience to ensure a successful and impactful event
- **Core Committee Member – MARInE.ai Hackathon:**
Coordinated and volunteered in organizing technical events, ensuring smooth workflows and efficient execution. Supported workshops on Generative AI and Agentic AI, and assisted in end-to-end operations for an Agentic AI hackathon
